Disclaimer

General information only. Not an offer to sell or solicit securities or virtual assets. Not investment, tax, or legal advice. Primary market participation is Timelock-gated and **not open** until post-cutover Reality. The project does **not** operate centralized KYC.

One sentence

TravelTrust is a trust-based travel commerce protocol combining marketplace, on-chain escrow, fee routing, governance, and community onboarding.

What it is

- Product + protocol for travel transactions with escrow, disputes, and reputation
- **TTG:** 25T genesis, NO-MINT, governance/budget asset — **not** default order settlement (USDC is)

Stage (honest)

- Mainnet Phase1 deployed; periphery governance **cutover pending**
- **Not** Production GO · **not** claiming exchange or Launchpad listing

Primary market (Official Web3 release notes)

Five named short windows: **Genesis calibration / Community early bird / Builder round / Public round / Final public round**. First window ~1.25B TTG from 15 Oct 2026 (7 days). Five rounds ≈ 3.905%. Min 1 USDC. **Windows are not open.**

Round	Name	Cap	UTC
①	Genesis	1.25B	2026-10-15 →

Round	Name	Cap	UTC
	calibration		10-22 (7d)
②	Community early bird	6.25B	2026-11-12 → 11-26 (14d)
③	Builder round	31.25B	2027-01-12 → 02-02 (21d)
④	Public round	312.5B	2027-03-09 → 04-08 (30d)
⑤	Final public round	625B	2027-05-06 → 06-20 (45d)
